Transform your retail packaging with
unmatched accuracy and speed.

BIZERBA

SOLUTION

Explore the B3 Automatic Weigh-Wrap System, your gateway to redefining packaging standards. This cutting-edge solution combines high-speed automatic wrapping with precision weighing, tailored for the dynamic demands of retail environments. From fresh produce to refrigerated items, the B3 ensures each product is impeccably wrapped, enhancing both its shelf appeal and lifespan.

Detailed features:

- ✓ Flexibly adapts to a wide range of product sizes, from delicate confections to large, bulk items, ensuring a tailored approach to diverse packaging needs.
- ✓ Features state-of-the-art technology for consistent, wrinkle-free wrapping and strong sealing that extends freshness and protects against contamination.
- ✓ Optimized for high-volume output, the B3 meets intensive retail demands without compromising the quality or integrity of packaging.

BENEFITS

Engineered adaptability and precision

The B3 Automatic Weigh-Wrap System is designed for flexibility, seamlessly adapting to the varied packaging needs of retail environments. It adjusts settings quickly to accommodate different product sizes and shapes, ensuring consistent packaging quality and high customer satisfaction, even under fluctuating market demands. With its capability to utilize a broad spectrum of ecofriendly films, the B3 not only meets diverse application needs but also emphasizes sustainability and superior packaging quality.

With its built-in flexibility and advanced design, the B3 ensures that your packaging operations can scale and adapt without compromising on quality or efficiency. It is built to meet the needs of today's dynamic retail environments, providing a reliable solution that enhances both productivity and customer satisfaction.

Customizable and reliable

Adaptive packaging solutions

Adjusts settings swiftly for different product sizes and shapes.

Offers customizable settings to meet specific packaging needs.

High packaging integrity

Maintains robust standards for seal integrity and appearance.

Provides protective wrapping for delicate items, ensuring their safety.

Responsive design

Easily adapts to changes in product lines or seasonal offerings.

Minimizes downtime between product changes, enhancing operational throughput.

Designed for productivity

Versatile film compatibility

Supports a wide range of eco-friendly films, ensuring high productivity and superior packaging quality across diverse applications.

Streamlined workflow

Engineered to optimize speed and reduce bottlenecks, enhancing overall productivity.

Minimal adjustments required

Equipped with advanced sensors and automatic programming, allowing for quick configuration changes with minimal manual input.

BENEFITS

Advanced labeling system

Elevate your brand with the B3's advanced 3D labeling system. This sophisticated technology not only enhances the visibility and appeal of your products through precise label placement on complex contours but also brings a new dimension of branding potential directly to your packaging line. The system's capabilities ensure your products stand out on shelves with labels that catch the eye and communicate quality.

Key benefits of the advanced labeling system:

Precision placement: Achieve exact label positioning, even on irregularly shaped packages, enhancing product presentation and consumer appeal.

Linerless labeling technology: The soon-to-be-introduced linerless labels will significantly reduce waste by eliminating the need for label backing paper, streamlining your operations and supporting your company's sustainability goals.

Dual labeling capabilities: Enhances packaging flexibility and design options, allowing for the use of both traditional and linerless labels in tandem to maximize brand impact and functionality.

Bizerba's complete labeling solutions offer a wide range of label designs and materials tailored to diverse industry needs—from simple price tags to complex nutritional information labels. Customize your labels to fully represent your brand and meet specific marketing and regulatory requirements, ensuring durability and readability with high-quality materials that withstand various environmental conditions, from cold storage to transportation.

**BENEFITS**

Hygiene & sustainability

- ✓ Hygiene is paramount in food packaging. The B3's design prioritizes easy access for cleaning and maintenance, featuring removable parts and stainless steel surfaces to uphold food safety regulations. Regular sanitization processes are streamlined to prevent downtime and maintain continuous operation.
- ✓ Commit to a greener operation with the B3's capabilities for using recyclable and biodegradable materials. Its energy-efficient design reduces power consumption, while its advanced material management system minimizes waste, supporting your sustainability goals without compromising on quality.

**BENEFITS**

User-friendly operation

- ✓ The B3 Automatic Weigh-Wrap System is engineered for simplicity and efficiency, making it accessible to operators of all skill levels. Its intuitive design ensures that minimal training is required, allowing your team to master its operation quickly.
- ✓ The system's automated functionalities and pre-configured settings simplify daily tasks, significantly reducing the risk of human error and enhancing overall productivity. With the B3, you can expect a seamless integration into your operations, enabling your staff to focus more on production and less on managing the equipment.

SOFTWARE

Smart software integration

Unlock the full potential of the B3 with our RetailPowerScale software, a robust platform that integrates seamlessly with your existing systems to enhance operational efficiency. This software provides powerful real-time data analysis and management tools, enabling you to swiftly adjust workflows and improve production outcomes.

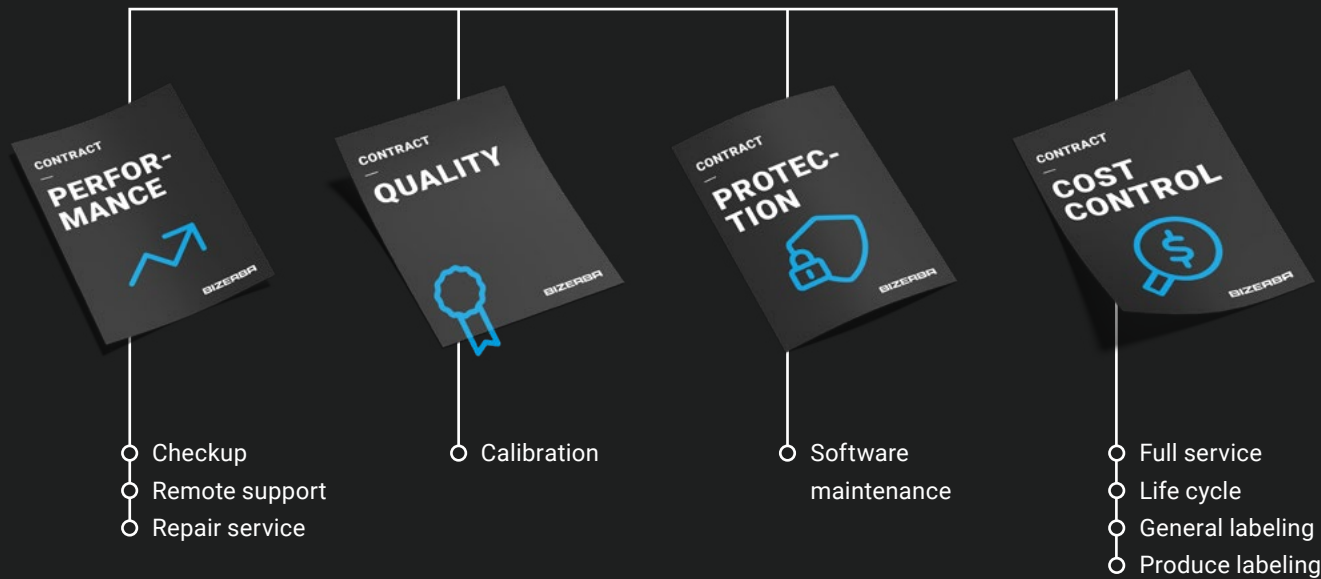

With its intuitive interface, the RetailPowerScale software facilitates a smooth transition for new users, minimizing disruption and accelerating proficiency across your operations.

CONTRACTS

Customer support and contracts

Our dedicated support team is ready to assist you with any needs, from installation to maintenance.

With extensive training resources and responsive customer service, we ensure you get the most out of your B3 system.
