

Data Sheet

EK-AEP

BIZERBA

The EK-AEP series allows safe measuring in potentially hazardous areas in which flammable substances are produced or processed.

More information
High performance
with a wide range of
solutions and options.

Product description

The compact, light-weight and precise EK-AEP series meets all requirements of zones 0, 1 and 2. Thanks to battery operation (approx. 250 hours) this compact scale is portable and can be used flexibly. No intrinsic safety barrier in hazardous areas required. Due to the automatic switch-off the operating time can be extended. The backlit LCD display allows fast and easy reading of the weight values.

Highlights

- Hygienic and chemically resistant stainless steel weighing pan (SUS304)
- Different weight units: g, oz, lb, ozt, ct, mom, dwt, gr, N, in addition to pcs (counting mode), % (percent mode) and SG (specific gravity)
- Automatic Counting Accuracy Improvement (ACAI)
- Comparator function for faster and more accurate filling, packing, sorting, etc.
- Adjustable response characteristics depending on ambient conditions at the location
- Security ring to prevent theft
- Automatic power OFF function to save battery power

EK-AEK

Options

- Carrying case
- Fiber optic communication adapter

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
