EK-i

BIZERBA

Choose the best for your weighing applications from a wider selection. High resolution of up to 1 / 60,000.

More information
High performance
with a wide range of
solutions and options.

Product description

A wide selection of capacities and resolutions, and remote zero setting has been included in a low-profile rugged housing. For years the EK-i series balances have been top selling products. The new EK-i compact balances have been designed to continue this tradition with enhanced capacities and resolutions.

All feature RS232C as standard and are designed to meet weights and measures regulations of various countries (e.g. NTEP, EC).

EK-i

Highlights

- Wide selection: Capacities ranging from 200 g to 12 kg
- Large LCD display (16 mm height) with backlighting – easy to read even at a wide viewing angle or dark environment
- Control zero, mode selection and data output with standard RS232C
- 9 weighing units plus counting and percentage mode
- Automatic Counting Accuracy Improvement (ACAI)
- Standard comparator function
- Fully digital calibration with optional user definable mass setting
- Conformity to GLP with ID and serial number
- Automatic switch off
- Portable, compact size, lightweight, rugged housing
- Sealed key panel - protection against dust and spills
- Low profile and small footprint for any space requirement
- Overload protection
- Stainless steel weighing pan
- Leveling feet and spirit level for accurate weighing
- Security ring to prevent theft

EK6100-i

Options

- Rechargeable battery unit
- Comparator/relay output
