with a wide range of
solutions and options.

Product description

Ensure the smoothest running of components due to regular care with lubricant Grease LM 21 for food processing machines. The consistent lubricant reduces equipment/system downtimes. Furthermore, this resistant care product reduces maintenance which also means less lubricant consumption. Protect your investment and apply this lubricant for food processing machines in order to avoid mechanical damages. This increases the longevity of your equipment.

Product features

- High quality multi-purpose lubricant, ideally suitable to lubricate machines, systems and equipment which require constant lubrication
- Suitable for rolling and bush bearings as well as seals
- Water-resistant and resistant to bacteria, disinfectants and cleaning agents
- Serves as corrosion protection
- Effective and economical in use
- High hygiene standard: NSF certification in category H1 Nonfood Compounds
- Halal certified
- Kosher certified
